

KLOOFSUITS

FREE SIMPLIFIED FURSUIT PAW TEMPLATE

Download and Print this document, cut the pieces out (the dotted line is a suggested 5mm seam allowance) and make your paws! You'll need to flip each piece for a pair of paws. Use your choice of pawpad method, though I recommend applique.

You can line these, or add a cuff to them. You can add claws, or crazy patterns! Use whichever pawpad fabrics you like, and customise this pattern as you like. Just have fun!

This template is free to use for both commercial and personal use, as long as Kloofsuits is credited as the creator in any use.

Have fun using your free pattern, and please tag us to show off your hard work!
